

## **Notice to Shareholders of Centaur Commodity Fund, pursuant to Chapter 4, Section 9a, second paragraph of the Swedish Investment Funds Act**

Shareholders of the Centaur Commodity Fund are hereby informed of an amendment to the fund's rules in § 5 through the addition of the following text:

*"The maximum weight of a single commodity may not exceed 35 percent in a financial index underlying the derivative instruments the fund takes positions in."*

The implication of this addition is that the fund's indirect exposure to a single commodity can amount to a maximum of 35% of the fund's value.

The purpose of this amendment is to enable the fund to more closely follow its benchmark index, where individual commodities may have weights exceeding 20% of the total weight of the benchmark index.

This change does not affect the fund's risk class, which remains at level 4.

The fund's fact sheet remains unchanged.

The updated fund rules and information brochure are available at [Centaurfonder.se](http://Centaurfonder.se).

The Swedish Financial Supervisory Authority has approved the updated fund rules and has determined that the rules, even after the amendments, are reasonable for the shareholders and do not conflict with the common interest of the shareholders.
